

TWEEDY, BROWNE WORLDWIDE HIGH DIVIDEND YIELD VALUE FUND *as of 04/30/2024*

## INVESTMENT STRATEGY

The Tweedy, Browne Worldwide High Dividend Yield Value Fund invests primarily in both US and foreign equity securities that the Investment Adviser believes to have above-average dividend yields and valuations that are reasonable.

## COMMITMENT OF THE ADVISER

As of March 31, 2024, the current Managing Directors and retired principals and their families, as well as employees of Tweedy, Browne, had more than \$293.3 million invested in our Funds, including approximately \$7.3 million in the Worldwide High Dividend Yield Value Fund. Investment Committee members have spent between 8 to 50 years working at Tweedy, Browne. No Management Committee member has ever left the firm except for the reason of retirement.

## FUND INCEPTION DATE

September 5, 2007

## NASDAQ SYMBOL

TBHDX

## INVESTMENT ADVISER

Tweedy, Browne Company LLC  
Established in 1920

## INVESTMENT COMMITTEE

Roger R. de Bree  
Andrew Ewert  
Frank H. Hawrylak, CFA  
Jay Hill, CFA  
Thomas H. Shragar  
John D. Spears  
Robert Q. Wyckoff, Jr.

Allocations shown above reflect the Fund's investments on April 30, 2024, and may not be representative of the Fund's current or future holdings. Data is based on the Fund's net assets reported as of the close of business on April 30, 2024 and may differ from net assets reported in the Fund's financial statements, which reflect adjustments in accordance with accounting principles generally accepted in the United States.

Current and future portfolio holdings are subject to risk. The securities of small, less well-known companies may be more volatile than those of larger companies. In addition, investing in foreign securities involves additional risks beyond the risks of investing in securities of US markets. These risks, which are more pronounced in emerging markets, include economic and political considerations not typically found in US markets, including currency fluctuation, political uncertainty and different financial standards, regulatory environments, and overall market and economic factors in the countries. Force majeure events such as pandemics and natural disasters are likely to increase the risks inherent in investments and could have a broad negative impact on the world economy and business activity in general. Value investing involves the risk that the market will not recognize a security's intrinsic value for a long time, or that a security thought to be undervalued may actually be appropriately priced when purchased. Dividends are not guaranteed, and a company currently paying dividends may cease paying dividends at any time. Diversification does not guarantee a profit or protect against a loss in declining markets. Investors should refer to the prospectus for a description of risk factors associated with investments in securities held by the Funds.

Tweedy, Browne Worldwide High Dividend Yield Value Fund is distributed by AMG Distributors, Inc., Member FINRA/SIPC.

**30-day Standardized Yield**  
As of 04/30/2024: 2.15% (Subsidized); 2.09% (Unsubsidized)  
**Total Annual Fund Operating Expense Ratios<sup>(1)(2)</sup>**  
As of 03/31/2023: 1.49% (gross); 1.39% (net)

**1** The Fund does not impose any front-end or deferred sales charges. The expense ratios shown above reflect the inclusion of acquired fund fees and expenses (i.e., the fees and expenses attributable to investing cash balances in money market funds) and may differ from those shown in the Funds' financial statements.

**2** Tweedy, Browne has voluntarily agreed, through at least July 31, 2024, to waive a portion of the Fund's investment advisory fees and/or reimburse a portion of the Fund's expenses to the extent necessary to keep the Fund's expense ratio in line with the expense ratio of the Tweedy, Browne International Value Fund. (For purposes of this calculation, the Fund's acquired fund fees and expenses, brokerage costs, interest, taxes and extraordinary expenses are disregarded, and the Fund's expense ratio is rounded to two decimal points.) The performance data shown would have been lower had fees and expenses not been waived and/or reimbursed during certain periods.

**3** The **MSCI World Index** is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets. The **MSCI World Index (USD)** reflects the return of this index for a US dollar investor. The **MSCI World High Dividend Yield Index** reflects the performance of equities in the index (excluding REITs) with higher dividend income and quality characteristics than average dividend yields that are both sustainable and persistent. The index also applies quality screens and reviews 12-month past performance to omit stocks with potentially deteriorating fundamentals that could force them to cut or reduce dividends. The **MSCI World High Dividend Yield Index (USD)** reflects the return of the MSCI World High Dividend Yield Index for a US dollar investor. Results for each index are inclusive of dividends and net of foreign withholding taxes.

Indexes are unmanaged, and the figures for the indexes shown include reinvestment of dividends and capital gains distributions and do not reflect any fees or expenses. Investors cannot invest directly in an index.

The performance data shown represents past performance and is not a guarantee of future results. Total return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Please visit [www.tweedy.com](http://www.tweedy.com) to obtain performance data that is current to the most recent month end.
